

Palbam Class offers a unique range of Carts for Cleanrooms

Are you tired of seeing the same mass produced carts, in everyone's website and catalogs. Not here. We offer you an excellent alternative.

CARTS & LADDERS

Unique Stainless Steel Solutions

The Palbam Class benefits:

- Highest Quality Stainless Steel
- Unique Ergonomic Designs
- Flat Packed for inexpensive shipping
- Anti-Vibration Transport Carts - for sensitive products and equipment
- Custom Designs - if you like what you see, but require your own specs, let us know - E mail: info@palbamclass.com

Palbam Class offers a unique range of Step Ladders for Cleanrooms

Check out the Step Ladder range for one of the best designed Palbam Class products.

- Tubular construction - offers superior ergonomic + laminar flow properties
- Wide "moon caster" bases - offers greater stability
- Spring-loaded retractable wheels - Ladders safe to climb, easy to move
- Range from 1 step to 5 step, offering a complete and safe solution whatever height requirement is necessary

UTILITY CARTS

The Cleanroom carts are designed to withstand heavy loads. Up to 60kg per shelf. Integral raised ledges prevent parts from rolling off and are easy to wipe down.

Options include:
 2 or 3 shelves
 Solid or perforated.
 White nylon 5" cleanroom casters (2 with brakes) supplied with every cart
 Fabrication material: 304 stainless steel, electropolished.
 Shipped Flat Packed with assembly instructions.

Cleanroom Utility Cart - 3 perforated shelves	550x550x990	22x22x39	UCP-55-3
Cleanroom Utility Cart - 3 perforated shelves	865x550x990	34x22x39	UCP-85-3

CHEMICAL TRANSPORT CART

This high quality cart has been designed to safely transport chemical containers throughout the cleanroom.

- Shelves height adjustable.
- Shelf covers are removable to allow easy wipedown.
- Anti vibration system in each wheel, reducing vibrations to breakable canisters.
- Remainder of cart fabricated from sst 316 with electropolished finish. Significantly lighter than standard polypropylene carts reducing maneuvering efforts.

Chemical Transport Cart	1148x558x1141	45x22x45	CHEM-CART-SST316

PARTICLE COUNTER TRANSPORT CART

This cart is specially designed for transporting **particle sensing machines** around the cleanroom environment. Ergonomic design. Shock absorbing system in each wheel protects the valuable particle sensor from vibrations and shocks. Telescopic arm attached to cart allows sensor placement to a height of 3m. Jointed arms at the end of the telescopic arm enable positioning of sensor underneath hoods and in awkward places. Fabrication material: 304 stainless steel, electropolished.

Can be ordered with or without the telescopic arm.

Telescopic Arm for sensor carts
3m height extendable / 1m horizontal extendable.

Fabrication materials: stainless steel and anodized aluminum. Anodized aluminum may be black or steel color.

Product	LxWxH (mm)	LxWxH (")	Cat. No.
