

Cleanroom ESD **ERGO** Chair

Palbam Class offers one of the highest quality and ergonomic cleanroom chairs available on the market today.

Cleanroom Class

Comply with class 4 in accordance with DIN EN ISO 14644-1 (corresponds to the previously valid US Federal Standard 209 E/ Class 10)

Conductivity

The chair is anti-static and conductive avoiding problems caused by charging. The chair fulfills the requirements regarding the dissipation of static charge in accordance with DIN EN 61340-5-1:2000. Conductive glides or casters.

Ergonomics

Automatic Bodyweight Adjustment – ideal for frequently changing users

Tapering Backrest offering optimum freedom for shoulders

Seat height adjustable 45 – 64 cm or 59 – 84 cm (depends on model)

Back rest adjustable 7cm

The seat and backrest automatically follow the movements of the person sitting with a simultaneous movement process. The backrest counterpressure

automatically adjusts to the user's body weight (for body weights of approx. 50-125 kg). In addition, the counterpressure can be individually finely adjusted. The backrest tilt angle can be set in 5 positions.

Automatic weight adjustment
