

**Palbam Class Product Advantages include**

- Electro-polished (*years of experience has allowed us to know how to design products so they can be properly electro-polished for cleanrooms*)
- Non-particulating
- Non accumulating
- Non flammable
- Long shelf life
- Modular
- Ergonomic designs
- User friendly
- Easy installation and maintenance free

**Advantages of Electro-polishing over Mechanical Polishing include**

- Improves Corrosion resistance of the Stainless Steel
- Improves surface smoothness
- Improves surface reflectivity, brightness & appearance
- Hygienically clean surface  
*Facilitates maintenance of a hygienically clean surface that is resistant to bacteria growth due to a smoother surface and the dissolution of embedded contaminants*
- Easier Cleaning  
*Because electro polishing is not a surface coating there is no risk of the surface distortion or peeling over time*
- Less Particles found on surface  
*Polishing & passivating inaccessible areas & intricate surfaces that are inaccessible to mechanical polishing*
