GOWNING
Unique Stainless Steel Solutions

- **Modern, aesthetic, ergonomic design**
- **Infinite layout options**
- **Suitable for all clean industries**
- **Fits all gown room sizes and procedures**
- **Modular, easy to install**

Palbam Class is a world-renowned Cleanroom Gowning Design and Furniture supplier. The extensive range of gownroom products designed and manufactured by Palbam Class is second to none. Palbam Class has a solution to every gownroom requirement, adding a touch of beauty to your cleanroom.

Palbam Class has fitted Gownrooms ranging from small interlocks up to high-density gownrooms serving 2000+ personnel.

Turnkey projects are our specialty.

The Gownroom is often the first impression for employees and visitors alike, that they are entering into a special area. Palbam Class products are guaranteed to ensure that your company will give the best possible impression, as well as serving all the ergonomic, cleanliness and functional requirements.

GOWNRACKS FOR FULL LENGTH COVERALLS
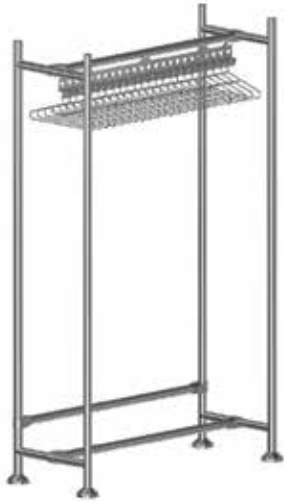

Ideal furniture, adding a touch of beauty to your gownroom. The modular design allows for various layout options.
Advantages of Palbam Class Gown Rack Design:
• Knock Down and completely modular - can be connected end to end or side to side or to walls.
• Unique rack design holds each hanger at exactly the same angle and spacing ensuring a uniform appearance, creating an image of orderliness and allowing sufficient laminar flow.
• Mirrors can be connected to side panels, enhancing both aesthetics and functionality.
• Highest quality workmanship insures aesthetic and functional properties are excellent.
• Each Gownrack is supplied with hangers and leveler legs with integral covers.
• Hangers - thickness of material ensures non-deforming.
Fabrication material: 304 stainless steel, electropolished.
• **Mirrors are optional**
Immediate delivery - in stock

FEEDER CABINETS

This modern design storage cabinet supports gowning operation from the gown room itself. Front access doors are used for reloading and for storage purposes. The bottom cabinet can be used for storage or disposal.
Perspex dispenser slots ensure that disposables or garments can be extracted one at a time and do not spill out.
Modular - available as:
4 compartments, 8 compartments and 12 compartments. Modifications are possible according to layout.
Fabrication material stainless steel 304 with electropolished finish.

Shipped flat packed with assembly instructions.

Can be customized with Sloping roofs or larger openings if required

Product	LxWxH (mm)	LxWxH (")	Cat. No.

MIRRORS

Mirrors are an integral part of the gowning process. The mirrors are safe with adhesive backing to prevent shattering and are mounted on a stainless steel plate.
A stainless steel frame enables easy mounting and guards the mirror from gownroom traffic.

There are 3 options :
MR-01: Free Standing, connected to the wall and floor. All weight is on the floor. Wall mount just provides anchor to prevent tipping.
MR-02: Mounted in side panel of Gown Racks
MR-03: Mounted in side panel of Bootie Racks

This unit is designed to fit below either: 2 x GD8540 or 1 x GD8060 to provide a complete dispensing / disposal system. Cabinet contains two large plastic bins.

Product	LxWxH (mm)	LxWxH (")	Cat. No.
Disposal cabinet – 2 doors	800x430x900	32x17x36	GDC-8040
Disposal cabinet – 1 door	400x430x900	16x17x36	GDC-4040
Frame 8040	800x30x1600	32x1x63	GDC8040-FRAME
Frame 4040	400x30x1600	16x1x63	GDC4040-FRAME

DISPOSAL CABINET FRAME

This frame allows you to install the dispensers above the cabinets with no need to connect them to the wall. Creates a free-stand dispenser and cabinet unit.
Fabrication material: 304 stainless steel, electropolished.

Complete Dispensing / Disposal Unit consists of:

Product	Cat. No.
Dispenser 4	GD8060
Frame 8040	GDC8040-FRAME
Disposal Cabinet	GDC-8040

Heavy Duty Table   **Ergo Table**

WORK STATIONS
Unique Stainless Steel Solutions

All Palbam Class products are designed and manufactured according to the following guidelines:

- Cleanliness – non-particulating and non-accumulating
- Ergonomic and human factors – industry standards
- Functionality of operation
- Design to cost
- Aesthetics, ensuring a high level of operator satisfaction
- Modularity.

Palbam Class product advantage is found in the small, but so essential, details:

The frames for the workstations are constructed from round tubing and not square profiles. This is essential, in ultra-cleanrooms with laminar airflow, as it reduces air turbulence, as well as being easier to clean and more ergonomically friendly.

Only the best craftsmen manufacture our products. This is easily recognized by examining the excellent welding and finishing quality.

The whole manufacturing process is ISO certified and conforms to the highest industry standards.

CLEANROOM ERGO TABLES
Table showing all accessories

Top shelf

Flat screen holder

Drawer Unit

Sliding Keyboard Holder

Bottom Shelf

Ergo - legs (prevent knee contact)
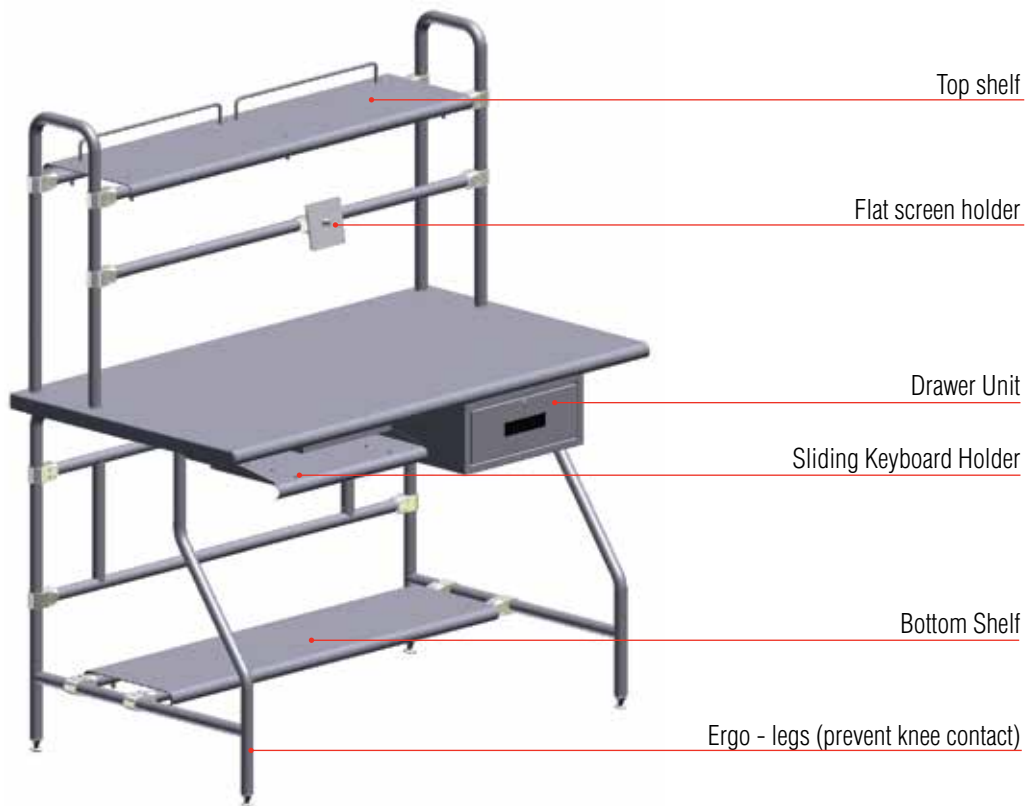

Features:

• Fabrication materials: 304 stainless steel with electropolished finish and Al anodized cleanroom compatible connectors.

• Designed to be shipped "flat packed" - assembly instructions included.

• Assembly time 10 minutes

• Rounded front table tops

• Ergonomic table legs designed to prevent operators "knocking knees" on table

• Height adjustable feet or casters

• All accessories attachable

Benefits:

• Excellent design conforms to highest cleanroom specifications

• Economical shipping

• User satisfaction guaranteed

CLEANROOM ERGO TABLES - Solid Top

Palbam Class Cleanroom tables are manufactured to the highest cleanroom standards. The bases are fabricated from tubing for easy cleaning and optimal airflow. The tops are designed to reduce vibrations and are very strong holding up to 80kg.
Palbam Class tables have fixtures enabling all the accessories to be attached at time of purchase or in the future if the need arises.
Accessories include top & bottom shelves, drawer units & keyboard holders & the flat screen holders.

Fabricated from stainless steel 304 with electropolished finish and anodized aluminum connectors.
The tables are shipped flat packed with easy assembly instructions.

Options:
Lengths: 600 - 2000mm
Widths: 600 or 760mm
Heights: 750 or 900mm

Custom sizes are also possible.

We use stainless steel **304L** which is electro-polished. We think this is suitable for most cleanroom requirements. However sometimes customers insist on using sst **316L**. This is possible. You just have to add X after the catalog number.

CLEANROOM HEAVY DUTY TABLE

• The Cleanroom Heavy Duty Table is designed for more robust and heavy duty activities.
• This sturdy workstation is available with either solid or perforated tops together with all the accessories.
• Table is designed to be delivered **Flat Packed**.
• Assembly instructions included.
• Assembly time 10 minutes.
• Fabrication material : 304 stainless steel, electropolished.
• Standard tables include adjustable feet. If you require casters instead of feet, simply write CASTORS - after the catalog #.
• 316 stainless steel available upon request.

• Palbam Class tables are designed for comfortable use. The standard 900mm/35.4 inch height allows work to be performed standing or sitting, and allows the comfortable attachment of all undershelf accessories.
• 750 mm height also available.

• To order tables outside of standard dimensions, contact us for details.

We use stainless steel **304L** which is electro-polished. We think this is suitable for most cleanroom requirements. However sometimes customers insist on using sst **316L**. This is possible. You just have to add X after the catalog number.

CLEANROOM HEAVY DUTY TABLE - Solid Top

Palbam Class Cleanroom tables are manufactured to the highest cleanroom standards. The bases are fabricated from tubing for easy cleaning and optimal airflow. The tops are designed to reduce vibrations and are very strong holding up to 100kg.
Palbam Class tables have fixtures enabling all the accessories to be attached at time of purchase or in the future if the need arises.
Accessories include top & bottom shelves, drawer units & keyboard holders & the flat screen holders.

Fabricated from stainless steel 304 with electropolished finish and anodized aluminum connectors. The tables are shipped flat packed with easy assembly instructions.

Options:
Lengths: 600 - 2000mm
Widths: 600 or 760mm
Heights: 750 or 900mm

Custom sizes are also possible.

We use stainless steel **304L** which is electro-polished. We think this is suitable for most cleanroom requirements. However sometimes customers insist on using sst **316L**. This is possible. You just have to add X after the catalog number.

To add 5" cleanroom casters to the tables add C after the catalog number.

We recommend adding casters to the 750mm / 30" height tables as this brings the table height to almost 900mm / 36"

CLEANROOM HEAVY DUTY TABLE - Perforated Top

Palbam Class Cleanroom tables are manufactured to the highest cleanroom standards. The bases are fabricated from tubing for easy cleaning and optimal airflow. The tops are designed to reduce vibrations and are very strong holding up to 100kg.
Palbam Class tables have fixtures enabling all the accessories to be attached at time of purchase or in the future if the need arises.
Accessories include top & bottom shelves, drawer units & keyboard holders & the flat screen holders.

Fabricated from stainless steel 304 with electropolished finish and anodized aluminum connectors. The tables are shipped flat packed with easy assembly instructions.

Options:
Lengths: 600 - 2000mm
Widths: 600 or 760mm
Heights: 750 or 900mm

Custom sizes are also possible.

We use stainless steel **304L** which is electro-polished. We think this is suitable for most cleanroom requirements. However sometimes customers insist on using sst **316L**. This is possible. You just have to add X after the catalog number.

To add 5" cleanroom casters to the tables add C after the catalog number.

We recommend adding casters to the 750mm / 30" height tables as this brings the table height to almost 900mm / 36"

CLEANROOM HEIGHT ADJUSTABLE WORKSTATIONS

The cleanroom height adjustable workstation is designed with motorized lifters to allow the operator to quickly change the height of the table to ensure a comfortable, ergonomic work environment. Table top and leveler base are manufactured from stainless steel 304 with electro-polished finish. The adjustable legs are manufactured from anodized aluminum. Height adjustability is controlled from easy to use front mounted control unit. Table height can be adjusted from 760 - 1147mm / 30 - 45". Custom dimensions are possible.

These tables are designed for 220V. For USA customers using 110V just write U after the catalog #.
Example: WU1401U

PALBAM CLASS - Unique Flat Packed Cleanroom Cabinets

Manufacturing with stainless steel 304 (316 upon request) and with an electro-polished finish the cabinets are of the highest quality suitable for cleanroom usage.
The unique flat packed design allows for the cabinets to be shipped economically and safely to your site. Cabinets are easily assembled and no special tools are required.

The below view of a sample cabinet shows how simply the cabinets are designed and assembled. This special design also allows us to fully electro-polish each part ensuring the highest level of corrosion protection and clean smooth surfaces.

Sample Palbam Class Cleanroom Cabinet Assembly shown below:

- Flat Packed
- Fully electro-polished
- Economical shipping
- Minimizes shipping damage
- Replaceable parts
- Unique to Palbam Class
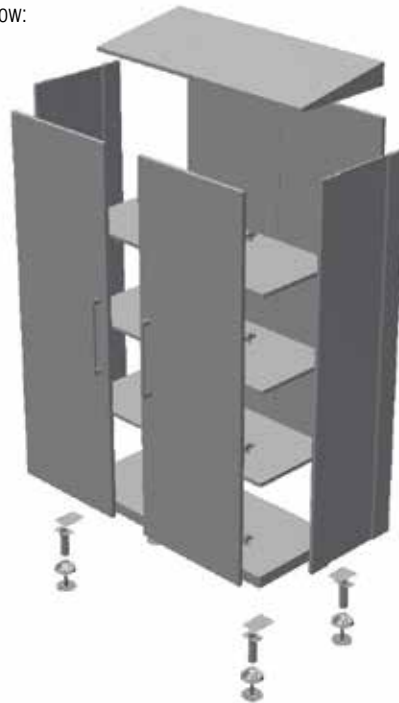

HEPA FILTERED CABINETS

Palbam Class is now offering HEPA filtered cabinets where extra cleanliness is required. For example Gowning Cabinets can now be supplied with a steady flow of HEPA filtered air. Contact us for details.

SHELF UNITS - SOLID

Shelf Unit Solid on Legs

Palbam Class offers a high quality range of solid or perforated shelving units fabricated from stainless steel 304 with electropolished finish and Al.anodized conectors.

The units are available on leveler legs or 5 inch diameter cleanroom casters.

The standard unit consists of 4 shelves. Extra shelves can be added.

The shelving is adjustable every 100 mm / 4".

Solid Shelves 400mm Widths / 16" Widths

CLEANROOM SEATING

Unique Stainless Steel Solutions

CLEANROOM ESD ERGO CHAIR

Palbam Class offers a Cleanroom ESD Ergo Chair which lives up to our reputation for high quality and ergonomics / operator comfort.
The Chairs comply with:
Cleanliness class 4 DIN EN ISO 14644-1
Anti-static and conductive according to DIN EN 61340-5-1:2000.

Seat Height Adjustable 450-640mm

Product	LxWxH (mm)	LxWxH (")	Cat. No.
Cleanroom Chair with conductive casters	700x700x1000-1260		PCKD0100
Cleanroom Chair with conductive locking casters	700x700x1000-1260		PCKD0110
Cleanroom Chair with flat conductive glides	700x700x1000-1260		PCKD0120

Seat Height Adjustable 600-850mm

Product	LxWxH (mm)	LxWxH (")	Cat. No.
Cleanroom Chair with foot-ring & flat ESD glides	700x700x1140-1460		PCKD0200

The chairs include the automatic weight adjustment ergo feature - and a tapering backrest offering optimum freedom for shoulders. Options available for conductive glides or casters.
Seat & Backrest Material and Color: Polyurethane (PU), Black (RAL 9011)
Base Material: Chrome steel.

SST FIXED HEIGHT STOOL

Palbam Class understands that sometimes there is a need for total stainless steel solutions in a cleanroom. For this reason we have a range of stainless stools which can either be on gliders or casters.
Fabrication material stainless steel 304 with electropolished finish.

Product	LxWxH (mm)	LxWxH (")	Cat. No.
SST Fixed Stool - On Gliders	600x600x500		SST-STOOL-G
SST Fixed Stool - On Casters	600x600x500		SST-STOOL-CA

SST HEIGHT ADJUSTABLE STOOL

The new 100% stainless steel adjustable height cleanroom stool meets the needs of customers that are looking for a totally stainless steel seating solution. Seat height adjustable from 450-580 mm. Easy to clean/wipedown, screw mechanism encased by tubing ensuring clean design and increasing aesthetic appeal.
Fabrication material: stainless steel 304 with electropolished finish + Delrin threaded part.

Product	LxWxH (mm)	LxWxH (")	Cat. No.
SST Adjustable Stool - On Gliders	600x600x450-580		SST-ADJ-STOOL-G
SST Adjustable Stool - On Casters	600x600x450-580		SST-ADJ-STOOL-CA

Stool Caster
White nylon caster with stainless steel swivel fork compatible for autoclaves.

Stool Glider
Stainless steel screw in glider with black rubber base compatible for autoclaves.

DESICCATORS
Unique Stainless Steel Solutions

Palbam Class developed its first Desiccator Cabinets for the Semiconductor Industry. Due to the demands of this industry all the cabinets are manufactured from the cleanest materials available.

Most manufacturers offer stainless steel accessories for their Desiccators. Palbam Class uses only Stainless Steel.
All modular designs – and "plug and play"
If you have a product which requires protection from: Particles + Moisture + Oxygen then Palbam Class offers you unique solutions.

Nitrogen is the standard medium for contamination-free storage because it is relatively inert–it neither reacts with stored materials nor carries moisture – and because it can be isolated and purified relatively inexpensively.

Palbam Class Desiccator cabinets are set up so that an appropriate flow of nitrogen forces out all moisture- and contamination-laden air. Because nitrogen has a lower specific gravity than air, it is introduced into the upper section of the desiccator; the heavier air is then purged out of the bottom.

If you require custom designed Desiccators, Palbam Class has an Engineering and Design team which is recognized worldwide as a leader in this field.

BENCH TOP N2 DESICCATOR
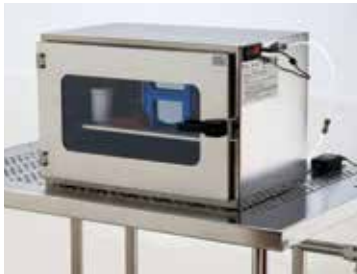

Palbam Class Bench Top N2 purge Desiccator Cabinets cut nitrogen expenses by up to 80%.
Automates clean, dry benchtop storage eliminating moisture & oxygen related degradation and optimizing yields.
Ideal for semiconductor components, biological and pharmaceutical samples, and other sensitive materials.
Fully integrated turnkey system takes 30 seconds to install.

Product	LxWxH (mm)	LxWxH (")	Cat. No.
Bench Top N2 Desiccator	600x400x400	24x16x16	**UCD-604040**
Bench Top N2 Desiccator	600x400x600	24x16x24	**UCD-604060**
Bench Top N2 Desiccator	800x500x500	32x20x20	**UCD-805050**
Bench Top N2 Desiccator	800x500x800	32x20x32	**UCD-805080**

Desiccator has built in RH% sensor and display panel - allowing user to monitor realtime relative humidity levels within the cabinet.
The easy to use control panel allows user to enter the required RH% level - the cabinet then regulates N2 input to ensure the desired RH% levels are maintained.
Fabrication materials: stainless steel 304 with electropolished finish and static dissipative PC windows.

Product	LxWxH (mm)	LxWxH (")	Cat. No.
Shelf solid for Desiccator UCD6040	600x400	24x16	**DS-6040**
Shelf solid for Desiccator UCD8050	800x500	32x20	**DS-8050**

Safety Factor
Many uncontrolled N2 cabinets rely on continous flow of N2 into the cabinet. This N2 is also being continously leaked into the cleanroom atmosphere - with the potential risk that this implies to the safety of operators.
Palbam Class N2 desiccator cabinets minimize the N2 usage and therefore minimize the N2 leakage into the cleanroom atmosphere.

The Bench Top Desiccator UCD-604040 can be used as a single unit on a table top or shelf or as units of 2 or 3 in dedicated shelf units.

Product	LxWxH (mm)	LxWxH (")	Cat. No.
Desiccator Stand - 2 units			**DSTAND-604040-2**
Desiccator Stand - 3 units			**DSTAND-604040-3**

N2 DESICCATORS - General storage

The ideal product for Ultraclean low humidity storage. Turnkey product. Includes automatic control system allowing manual or automatic purging. The automatic trickle purge saves on inert gas input.
Door sensors activate when doors opened to close purging to prevent gaseous escape and wastage. Door closing activates high purge to reduce humidity levels fast.
All plumbing integrated. Adjustable shelving. Modular design. Fabrication material : 304 stainless steel with electropolished finish.

Includes in-line gas filter and ultraclean valves.

Product	LxWxH (mm)	LxWxH (")	Cat. No.
Desiccator Cabinet - 1 Chamber	820x490x1700	32x19x67	PCSE0902
Desiccator Cabinet - 2 Chamber	820x490x2000	32x19x80	PCSE0801

N2 DESICCATOR CABINET - FOUP storage

Ultraclean N2 purging cabinet - Dessicator, is fully automated allowing full control of N2 input according to requirements. This is the ideal solution for low humidity storage. This unit is specifically designed for four 300mm FOUP pods. This cabinet is typically used to store pre purged FOUP pods for long periods of storage. Fabrication material : 304 sst, electropolished. High purity materials.

Includes in-line gas filter and ultraclean valves.

Product	LxWxH (mm)	LxWxH (")	Cat. No.
N2 Desiccator Cabinet - FOUP Storage	683x580x2130	27x23x84	PCSE0605
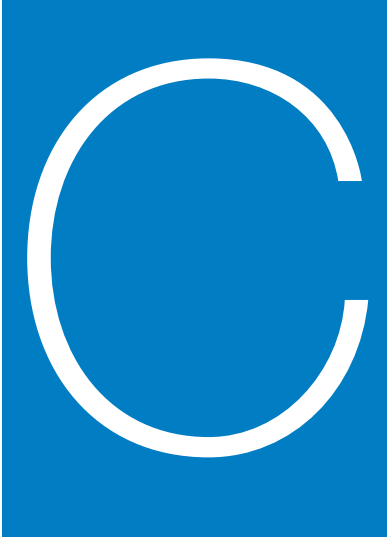

CARTS & LADDERS
Unique Stainless Steel Solutions

UTILITY CARTS

The Cleanroom carts are designed to withstand heavy loads.
Up to 60kg per shelf.
Integral raised ledges prevent parts from rolling off and are easy to wipe down.

Options include:
2 or 3 shelves
Solid or perforated.
Special non-marking, smooth running 5" cleanroom casters
(2 with brakes) supplied with every cart
Fabrication material: 304 stainless steel, electropolished.
Shipped Flat Packed with assembly instructions.

Product	LxWxH (mm)	LxWxH (")	Cat. No.
Cleanroom Utility Cart - 2 solid shelves	550x550x990	22x22x39	**UC-55-2**
Cleanroom Utility Cart - 2 solid shelves	865x550x990	34x22x39	**UC-85-2**

Cleanroom Utility Cart - 3 perforated shelves	865x550x990	34x22x39	**UCP-85-3**

NEW AUTOCLAVABLE CARTS

Palbam Class now offers fully autoclavable carts based on the utility carts above however with special autoclavable fork and caster. These are less smooth running than the Utility Carts but if they have to be autoclavable they are a great solution.
Simply remove the UC from catalog # and add AC.
Example: Autoclavable cart 2 solid shelves 865x550x990mm is AC-85-2

CHEMICAL TRANSPORT CART

This high quality cart has been designed to safely transport chemical containers throughout the cleanroom.
• Shelves height adjustable.
• Shelf covers are removable to allow easy wipedown.
• Anti vibration system in each wheel, reducing vibrations to breakable canisters. (optional)
• Remainder of cart fabricated from sst 316 with electropolished finish. Significantly lighter than standard polypropylene carts reducing maneuvering efforts.

Product	LxWxH (mm)	LxWxH (")	Cat. No.
Chemical Transport Cart with anti vibrations casters	1148x558x1141	45x22x45	**CY0004**
Chemical Transport Cart with regular cleanroom casters	1148x558x1141	45x22x45	**CY0006**

PARTICLE COUNTER TRANSPORT CART

This cart is specially designed for transporting **particle sensing machines** around the cleanroom environment. Ergonomic design. (optional) Shock absorbing system in each wheel protects the valuable particle sensor from vibrations and shocks.

We recommend the carts with anti-vibration casters for Semi-conductor cleanrooms with perforated floors. We recommend the carts with regular cleanroom casters for Pharma cleanrooms.

Telescopic arm attached to cart allows sensor placement to a height of 3m. Jointed arms at the end of the telescopic arm enable positioning of sensor underneath hoods and in awkward places.

Fabrication material: 304 stainless steel, electropolished.

Can be ordered with or without the telescopic arm.

With Anti-Vibration Casters

Product	LxWxH (mm)	LxWxH (")	Cat. No.
Particle Counter Transport Cart – solid shelves	691x490x1000	27x19x39	**PCCS0701**
Particle Counter Transport Cart – perforated shelves	691x490x1000	27x19x39	**PCCS0702**
Particle Counter Transport Cart – solid LARGE shelves	917x490x1000	36x19x39	**PCCS0902**

With Regular Cleanroom Casters

Product	LxWxH (mm)	LxWxH (")	Cat. No.
Particle Counter Transport Cart - solid shelves	691x490x1000	27x19x39	**PCCS0721**
Particle Counter Transport Cart - perforated shelves	691x490x1000	27x19x39	**PCCS0722**
Particle Counter Transport Cart - solid LARGE shelves	917x490x1000	36x19x39	**PCCS0922**

Telescopic Arm for sensor carts
3m height extendable / 1m horizontal extendable.

Fabrication materials: stainless steel and anodized aluminum. Anodized aluminum may be black or steel color.

WAFER TRANSPORT CARTS

Features
• The 8" WIP cart is designed to carry SMIF pods and regular boxes too.
• The nest holds the product firmly and prevents it from sliding and rocking.
• A patented shock absorber system is integrated into each wheel.
• Superb castors and large bumpers allow easy and safe driving of cart.
• The cart, which is compact in size, is easy to maneuver within the busy clean room, especially through narrow isles.
• Fabrication material: 304 stainless steel, electropolished.

Benefits
• Wafer protection results in higher yields.

Product	LxWxH (mm)	LxWxH (")	Cat. No.
8" WIP Carts - 4 nests	884x400x935	35x16x37	4-PWC
8" WIP Carts - 6 nests	884x470x1220	35x19x48	6-PWC

This cart is designed to transport open cassettes. The special nests are connected to cart frame by 4 spring loaded dampers, reducing vibrations.

Product	LxWxH (mm)	LxWxH (")	Cat. No.
8" Wafer Cassette Transport Cart - 4 nests	1010x750x1105	40x30x43	4-PCC
8" Wafer Cassette Transport Cart - 6 nests	1400x750x1105	55x30x43.5	6-PCC

This cart is designed to transport FOUP & FOSB wafer containers used in 300mm wafer manufacturing.

Product	LxWxH (mm)	LxWxH (")	Cat. No.
12" Wafer Transport - FOUP / FOSB - 1 nest	738x590x1231	29x23x49	1-PFC
12" Wafer Transport - FOUP / FOSB - 2 nests	1211x590x1231	48x23x49	2-PFC
12" Wafer Transport - FOUP / FOSB - 4 nests	1211x590x1231	48x23x49	4-PFC

TOOL CART – 5 DRAWERS

This newly designed ultraclean stainless steel fully electropolished Tool Cart features:
• 5 fully extendable drawers.
• One lock which secures all the drawers.
• Top ledge to prevent tools/parts falling.
• Cleanroom castors with brakes.
Fabrication material: Stainless Steel 304 with Electropolished finish.
We can customize to your requirements.
In Stock

Product	LxWxH (mm)	LxWxH (")	Cat. No.
Tool Cart	730x470x850	29x18.5x34	CT0702

TOOL CART – 6 DRAWERS

Stainless Steel high quality Cleanroom Tool Cart with modern clean design.
• 6 Drawers are fully extendable.
Each Drawer has a lock.
• Raised edge on top surface prevents parts from accidentally falling.
• Supplied with Cleanroom casters (2 with brakes).
Fabrication material: 304 stainless steel, electropolished.

Product	LxWxH (mm)	LxWxH (")	Cat. No.
Tool Cart	730x470x1000	29x18.5x39.5	CT0704

TOOL CART – 8 DRAWERS

Stainless Steel high quality Cleanroom Tool Cart with modern clean design.
• 8 Drawers are fully extendable. 2 large, 2 medium and 4 small drawers.
• Raised edge on top surface prevents parts from accidentally falling.
• Supplied with Cleanroom casters (2 with brakes).
Without Drawer locks.
Fabrication material : 304 stainless steel, electropolished.

Product	LxWxH (mm)	LxWxH (")	Cat. No.
Tool Cart	900x600x1193	35.5x24x47	CT0710

STEP LADDERS - Mobile

Maneuverable step ladders with mooncastors.
While weight is applied on the first step, wheels retract and the moon cups with cleanroom approved nylon guards sit firmly on the floor, ensuring a safe climb. Height of top step from ground level when weight is applied are as follows:
1 step ladder - 201mm
2 step ladder - 520mm
3 step ladder - 609mm
4 step ladder - 782mm
5 step ladder - 1140mm (this ladder is equipped with side stabilizers)

The ladders:
STLD-1
STLD-2
STLD-3
are held in stock for immediate shipment.

All the ladders can be manuevred by a single person and are ideal if they have to be moved often.
Fabrication material: 304 stainless steel, electropolished.
Mechanism parts are made of SST.

Product	LxWxH (mm)	LxWxH (")	Cat. No.
1 step ladder with retractable casters	600x300x200	24x12x8	**1-STLD**
2 step ladder with retractable casters	805x500x600	32x25x24	**2-STLD**
3 step ladder with retractable casters	632x832x1509	25x33x60	**3-STLD**
4 step ladder with retractable casters	900x1025x1713	36x40x68	**4-STLD**
5 step ladder with fixed casters & side stabilizers	800x1520x2200	32x60x87	**5-STLD**
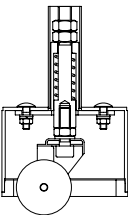

STEP LADDERS - NON MOBILE

The non mobile range of step stools are identical to the mobile range except that they have leveling feet instead of the retractable casters. These step stools are designed for fixed locations where they are not required to be moved often. Fabrication material: 304 stainless steel with electropolished finish.

Product	LxWxH (mm)	LxWxH (")	Cat. No.
1 step ladder - non-mobile	600x300x200	24x12x8	1-LAD-NM
2 step ladder - non-mobile	805x500x600	32x25x24	2-LAD-NM
3 step ladder - non-mobile	632x832x1509	25x33x60	3-LAD-NM
4 step ladder - non-mobile	900x1025x1713	36x40x68	4-LAD-NM
5 step ladder - non-mobile	800x1280x2000	32x51x79	5-LAD-NM

Custom Step Ladder Designs Possible

WAFER CASSETTE
Unique Stainless Steel Solutions

The dramatic increase in the level and complexity of cleanliness and automation requirements in Semiconductor Fabs, requires wafer cassettes that offer a reduction in particle generation and improved mechanical interface capabilities with automated material-handling systems (AMHS's) and process tools.

Palbam Class Stainless Steel cassettes have the following properties:
• Non contaminating
• Non deforming
• Highly accurate dimensions - robotic suitability
• Withstands baking processes up to 400°C
• Designed and manufactured to 'Semi' standards
• "H" Bar where stated
• Fully conductive
• Cassette design allows uniform heat distribution over the wafer surface

Stainless steel has excellent stable molecular properties. High surface quality -20RA - is much superior to any petro-chemical material - no out gassing. Stainless steel is much softer than silicon - in the category of Rockwell B.
The cassettes are fabricated from stainless steel 316

4"&5" WAFER CASSETTE

4 inch stainless steel wafer cassette for bake oven. Includes H Bar and slide on cover to prevent wafer exit. 25 slots. Withstand bake temperatures up to 400˚C.

Product	LxWxH (mm)	LxWxH (")	Cat. No.
4" Wafer Cassette	132.5x143x115		PCPC0101

5 inch stainless steel wafer cassette for bake oven. 50 slots. Withstand bake temperatures up to 400˚C.

Product	LxWxH (mm)	LxWxH (")	Cat. No.
5" Wafer Cassette	135.5x269x155		PCPC0121

6"-150mm WAFER CASSETTE
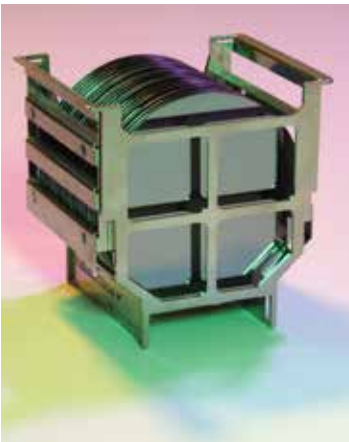

The Palbam Class™, innovative Stainless Steel wafer cassette is designed to replace standard plastic cassettes, in the semiconductor manufacturing process. The cassette has been designed to SEMI standard. 6 inch wafer bake cassettes with H Bar & either 25 or 12 slots.

Properties:
- non-contaminating.
- non-deforming.
- fully conductive.
- withstands temperatures up to 400˚C.
- with "H" bar.
- dimensions are highly accurate.
- weighs 800 gr.
- designed for both manual and robotic handling.
- fits into standard boxes.
- Fabrication material: 316 stainless steel.
- Handle - optional.

Product	LxWxH (mm)	LxWxH (")	Cat. No.
6" Wafer Cassette - 25 slots	178x144x171		PCPC0154
6" Wafer Cassette - 12 slots			PCPC0155

8"-200mm WAFER BAKE CASSETTES - With H Bar

PCPC0210
8 Inch round wafers
H bar
25 wafer slots
Robotic or push transfer loading

Product	LxWxH (mm)	LxWxH (")	Cat. No.
8" Wafer Cassette	210x217x220		**PCPC0210**
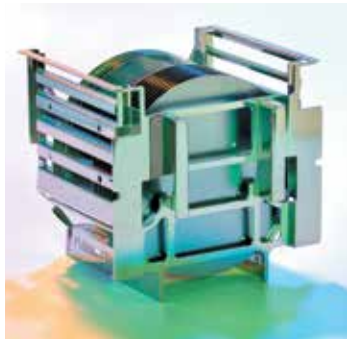

PCPC0207
8 Inch round wafers
H bar
25 wafer slots
Additional handles
Modeled on specific plastic cassette
Robotic or push transfer loading

Product	LxWxH (mm)	LxWxH (")	Cat. No.
8" Wafer Cassette	233.5x222x220		**PCPC0207**

PCPC0205
8 Inch round wafers
H bar
12 wafer slots
Robotic or push transfer loading

Product	LxWxH (mm)	LxWxH (")	Cat. No.
8" Wafer Cassette	233.5x203x220		**PCPC0205**

PCPC0214
8 inch round wafers
H Bar
13 slots
Robotic or push transfer loading

Product	LxWxH (mm)	LxWxH (")	Cat. No.
8" Wafer Cassette	233.5x220x220		**PCPC0214**

8" - 200mm BAKE CASSETTES - Without H Bar
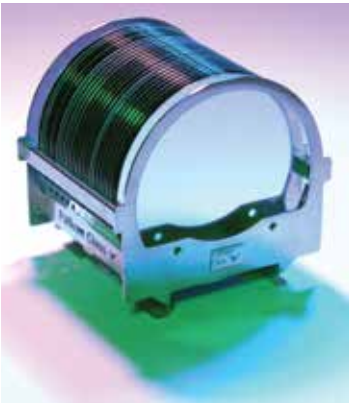

8 inch round wafers
Without H Bar
25 wafer slots

Product	LxWxH (mm)	LxWxH (")	Cat. No.
8" Wafer Bake Cassette	226x189x1900		**PCPC0203**
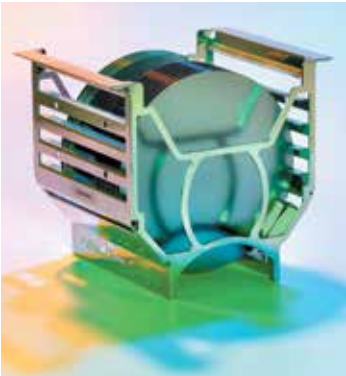

8 inch round wafers
Without H Bar
25 wafer slots
Robotic or push transfer loading

Product	LxWxH (mm)	LxWxH (")	Cat. No.
8" Wafer Bake Cassette	255x202.4x218		**PCPC0208**

**We offer custom designs
to fit your dimensions**

HANDLE 6" AND 8"

Handle for 6" and 8" cassettes

Product	LxWxH (mm)	LxWxH (")	Cat. No.
Handle for 6 inch cassettes			**HANDLE-6**
Handle for 8 inch cassettes			**HANDLE-8**

12"- 300mm WAFER BAKE CASSETTES

Product	LxWxH (mm)	LxWxH (")	Cat. No.
12" Wafer Cassette - 25 slots	324x293x305		**PCPC0301**
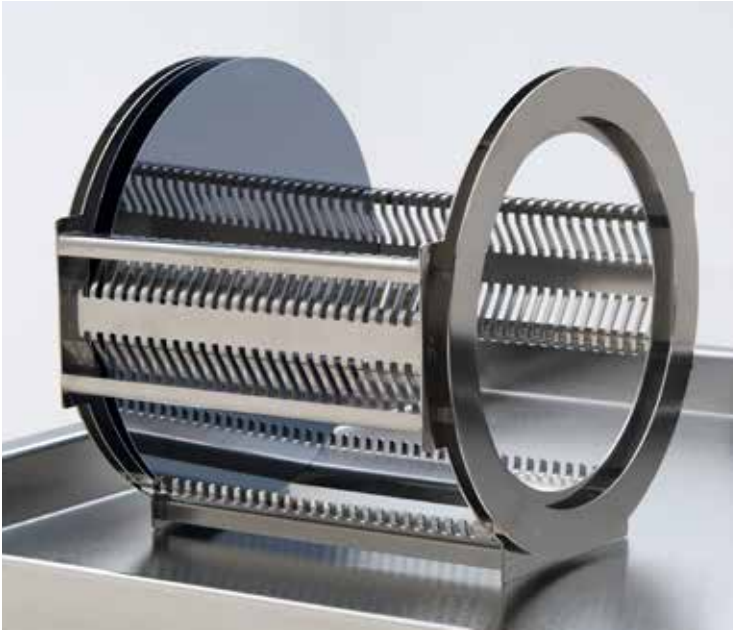

12 inch stainless steel wafer cassette
for bake oven.
25 slots.
Withstand bake temperatures up to
450˚C.
Lightweight design - weighs only 3.4 kg.
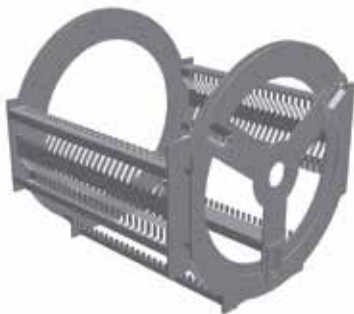

Features & Benefits

Stainless steel construction allows
cassette to withstand bake temperatures
up to 450˚C.
Open design allows even heat
distribution of wafer surface.
Unique design keeps weight down
to 3.4kg.
Dedicated kinematic adapter allows
cassette to be placed on a stage
conforming to SEMI Std.
Fully conductive
Non outgassing.

SEMI Standard E-57 compatible.

Product	LxWxH (mm)	LxWxH (")	Cat. No.
12" Wafer Cassette - 25 slots with kinematic couplings	324X307X305		**PCPC0305**
12" Wafer Cassette – 25 slots with kinematic couplings and handles	324X307X305		**PCPC0306**

DISTRIBUTION & PRICING

NORTH AMERICA

USA & CANADA

Palbam Class is represented by a network of local specialized cleanroom Distributors within the USA & Canada.

Contact Palbam Class directly (through the website) and you will be directed to your local cleanroom representative.

Web: www.palbamclass.com

USA Toll Free Tel: 888-641-2466

E mail: info@palbamclass.com

EUROPE

Palbam Class is distributed throughout all countries in Europe by

BASAN - VWR International GmbH.

VWR together with **Basan the cleanroom division of VWR**, covers every country in Europe which allows easy access to Palbam Class products from one source.

HQ is located at:

Basan – Cleanroom Division of VWR, Donaustrasse 1, Kelsterbach, 65451, Germany

Tel: +49-6107 9008-500

Products are visible on websites:

www.vwr.com & www.basan.com

OTHER LOCATIONS WORLDWIDE

All other worldwide locations should contact Palbam Class
Headquarters at:

Palbam Class – (Cleanroom Division of Palbam 2008 AC Ltd)

En Harod Ihud, 18960, Israel

Tel: +972-4-6530783

E mail: info@palbamclass.com

PRICING

For up-to-date pricing including delivery contact either:

• Your local country representative or

• Contact Palbam Class through the website REQUEST FOR QUOTE facility

If in doubt contact us at info@palbamclass.com

COMPANY PROFILE

Palbam Class - When Quality Matters

If you are searching for high end cleanroom furniture & equipment - then you have come to the right place. Palbam Class has a worldwide reputation for supplying the very highest quality cleanroom products to all the Cleanroom Industries - Pharma, Biotech, Microelectronics, Nanotechnology etc. The products range from Cleanroom Furniture (tables, dispensers, gowning furniture, cabinets & racks) to Cleanroom Equipment (carts, ladders, metal wafer cassettes & ultraclean nitrogen purging solutions). You can request pricing through the Request for Quote facility - and if you want to receive the catalog just complete the contact form in **contact us** on the website.

Distributors Worldwide

Palbam Class has a worldwide network of Distributors. When you send to us your Request for Quote through our website - your request will be answered by either our main office or a distributor near you within 24 hours. This fast, personal service worldwide offers you an unmatched service.

About the Request for Quote List

We understand that todays customers want to receive answers immediately. Each product on our website can be added to your Request for Quote list. Simply complete the form and send to us your request for quote. We will endeavour to reply within 24 hours with product pricing and shipping costs to your location. If you experience any problems with this facility, then simply send your request by e-mail direct to info@palbamclass.com

Flat packed designs for economic shipping

Palbam Class unique flat packed designs enable almost all Palbam Class products to be shipped economically and installed at the customers convenience.

One Year Warranty

All Palbam Class products are covered by a one year warranty. We will immediately replace defective or damaged parts or products - giving you peace of mind.

Palbam Metal Industries

Palbam Class is the cleanroom division within the Palbam Metal Industries group www.palbam.co.il

Copyright Protection

The Palbam Class catalog & website are copyrighted and registered. All pictures and texts are unique to Palbam Class and under ownership of Palbam Class. Any unauthorised copying or using of Palbam Class material will be open to legal compensation.

Palbam Class Product Advantages include

• Electro-polished

(years of experience has allowed us to know how to design products
so they can be properly electro-polished)

• Non-particulating
• Non accumulating
• Non flammable
• Long shelf life
• Modular
• Ergonomic designs
• User friendly
• Easy installation and maintenance free

Advantages of Electro-polishing over Mechanical Polishing include

• Improves Corrosion resistance
• Improves surface smoothness
• Improves surface reflectivity and brightness
• Hygienically clean surface

Facilitates maintenance of a hygienically clean surface that is resistant
to bacteria growth due to a smoother surface and the dissolution of
embedded contaminants.

• Easier Cleaning
• Less Particles

Because electro polishing is not a surface coating there is no risk of
the surface distortion or peeling over time.

• Aesthetically appealing
• Polishing & passivating inaccessible areas

Polishing & passivating inaccessible areas & intricate surfaces that
are inaccessible to mechanical polishing.

Palbam Class products are ideally suited for Cleanroom Class 10-10,000/ISO 4 - ISO 7

| Class | maximum particles/ft³ | | | | | ISO equivalent |
	0.1 µm	0.2 µm	0.3 µm	0.5 µm	5 µm	
1	35	7	3	1		ISO 3
10	350	75	30	10		ISO 4
100		750	300	100		ISO 5
1,000				1,000	7	ISO 6
10,000				10,000	70	ISO 7
100,000				100,000	700	ISO 8
